

# SUGAR

THE MOVIE

**Life on the street isn't so sweet.**

*"Sugar is one of those rare films that makes you angry, engaged and motivated to take action. I can't recommend it highly enough."*

*Jerry Jones, Executive Director of the National Coalition for the Homeless in Washington DC*

Based on true events, SUGAR is the story of a young girl coping with PTSD on the streets of Venice, California. She survives on the fringes of society with her outcast friends, running from the torments of her past. SUGAR takes a realistic look at what forces so many of our youth onto the streets and what they go through to survive. It is not a story of redemption, it is a story of reality.

*"This a great humanitarian effort—this isn't just a movie. This deserves to succeed"*

*Elliot Broidy, Philanthropist*

This movie can inspire people to support, think differently and change the way they act and look at Homeless Youth. It will create change.
